Chapter 10 Review

Chapter 10: A Canadian Province - Modernization and Social Change

Terms to Know: mega-project, modernization, decertify, growth centre, infrastructure, primary sector, secondary sector, tertiary sector, resettlement

Development of Industry and Economic Growth

1. What were four advances that made fishing more efficient after confederation?
2. What factors affected the development of the forestry industry?
3. In what ways has technology made mining in Labrador possible?
4. Explain why Newfoundland needed the province of Quebec to complete the Churchill Falls hydroelectric development.
 - a) Why is this deal seen today as one of the greatest mistakes in Newfoundland and Labrador History?
 - b) How is the province attempting to avoid the same mistake today with the Muskrat Falls hydroelectric development?
5. Why is infrastructure so important to society? Provide four examples of infrastructure that exist in Goose Bay.

Social Change

1. Why did the Newfoundland government organize the resettlement program from the 1950s to the 1970s?
2. What were four arguments for resettlement and four arguments against resettlement?
3. Using three examples, explain how technology made huge changes to the lifestyles of the people of Newfoundland and Labrador after confederation.
4. Why did the union, the International Woodworkers of America (IWA), have loggers go on strike in 1959? What event led to the decertifying of the IWA during this strike?
