

## Technology 8

### Unit 1 Project 4

In Microsoft Word, Answer the following items. You will be marked on the completeness of the responses. Save the file to your desktop and submit the completed questions to me via dropittome.

1. Describe how a designer might make use of proportion to enhance the appearance of a television remote control. (5 marks)
2. How might a designer use texture to improve the visual appearance of a product? (5 marks)
3. Proportion and colour are two aspects of aesthetics that the designer needs to consider.
  - a) Briefly explain what is meant by the term proportion and give one main reason why it is an important consideration for the designer. (5 marks)
  - b) Outline three different ways that colours may be used in products in order to improve aesthetic appeal. (5 marks)
4. Explain how texture and symmetry can influence the aesthetic appeal of sports footwear. (5 marks)
5. Save the file as **aesthetics in design first name last name.wpd** (2 marks)
6. Submit using dropittome (2 marks)
